SECRET/NOFORN

PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8822

SESSION NUMBER: 001

DATE OF SESSION: 4 Jan 89

DATE OF REPORT: 4 Jan 89

START: 1000

END: 1102

METHODOLOGY: CRV

VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: Report on facility portrayed on photocopy of overhead imagery.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 307281 819446

no incriminations noted.

3. (S/NF/SK) COMMENTS: Viewer effectively accessed the site and provided useful drawings/schematics in addition to information.

4. (S/NF/SK) EVALUATION: *4.*

SESSION SUMMARY

VIEWER: *011

SESSION: 04 JAN 89

START: 1000

STOP: 1102

THIS TARGET IS A LARGE COMPLEX CONSISTING OF NUMEROUS STRUCTURES. THESE STRUCTURES ARE ALL INTERCONNECTED BOTH CONCEPTUALLY AND QUITE OFTEN LITERALLY. THIS COMPLEX REMINDS ME OF A LARGE INDUSTRIAL COMPLEX. IT APPEARS TO BE ENTIRELY SELF-SUFFICIENT AND CONTAINED. FOR EXAMPLE, IT HAS ITS OWN POWER SUPPLY AND PROCESSES AND REFINES RAW MATERIAL, WHICH IS FURTHER PROCESSED, TO BE COMBINED/ASSEMBLED TO PRODUCE A TANGIBLE PRODUCT. SEE SKETCH BELOW.

B. Structure

A1 break
the round thing at
the top of the structure is
rather interesting

A1 break
the thing at top of
structure appears round, but
is made-up of many angles
I find this to be very strange

large complex

AOL breakindustrial
complex

4th - to try and get a large overview, the site is rather and complex - there are many connected structures - and these structures are connected both functionally and many quite literally. However, there is so much smoke/steam in the air it is somewhat difficult to get a clear overview of the entire area at one time. The complex reminds me of a large industrial complex. There are many aspects connected to produce a product.

ALLEGORICAL OVERLAY

like — to produce a tractor — there is A.
 a bldg for producing energy (i.e. power plant/transformer complex)
 B. a foundry complex to make castings etc. C. a complex
 for machining parts etc., and D. a final assembly
 line

an industrial complex that is pretty much
 self contained — the process from raw material to final
 product seems to be accomplished entirely within this complex
